Subject: SUMMARY OF CDO ANALYSIS USING CREDIT MODEL.xls

Importance: High

Attachments: SUMMARY OF CDO ANALYSIS USING CREDIT MODEL.xls

I ran as many of the ABS CDO portfolios we had in our database and added them to the ever-growing list of work that Stu and Annie have been doing manually. Attached are the results. We now have credit model analysis for 92 different ABS CDOs. I've sorted them two ways on two different tabs. First, sorting from best to worst by implied writedown, and, then sorting from best to worst by the weighted avg fair value of the covered portfolio. I've highlighted KLIO I and TALLSHIPS in green as you'll see for obvious reasons.

We're going to continue to add to this list and also have plenty more work to be done as far as creating a principal writedown WAL (rather than start date), automating the whole process, etc... But, I think it's a great start and thanks again to everyone who has been working very hard to get this done in short order.

<<SUMMARY OF CDO ANALYSIS USING CREDIT MODEL.xls>>
